Software, Automation & AI Solutions

UEI SGRABKD94XN3 • CAGE 9XFF3 • Small Business • Orlando, Florida

CORE COMPETENCIES

Custom Software Development — web applications, mobile apps (iOS/Android), REST/GraphQL APIs, and integrations, delivered end-to-end from requirements through deployment and support.

AI & Intelligent Automation — LLM-powered tools, document processing, workflow automation, and decision-support systems built on modern AI platforms.

Cloud & Infrastructure — cloud deployment and migration, containerization (Docker), self-hosted and hybrid environments, CI/CD pipelines.

Legacy Modernization — replatforming aging systems to modern, maintainable, secure stacks.

DIFFERENTIATORS

Senior-level delivery on every task — the engineer who scopes the work builds the work; no handoffs, no junior staffing, no communication loss.

AI-accelerated velocity — modern AI-assisted development delivers production software on timelines and budgets traditional teams can't match.

Full lifecycle ownership — one accountable point of contact from kickoff through sustainment and operations.

Fixed, transparent pricing on well-scoped work.

CORPORATE EXPERIENCE

CampaignBeam — AI-native go-to-market platform: multi-service architecture, LLM-driven workflows, production cloud deployment. (*campaignbeam.com*)

Job Ready Prep — real-time AI assistance web application with a disciplined multi-environment release pipeline. (*jobreadyprep.com*)

LocalStuff — multi-role service marketplace (admin / provider / customer) with role-based access control. (*localstuff.io*)

Gen218 — cross-platform community application (mobile + web) on a self-hosted, customer-owned backend. (*gen218.us*)
